

**SAFETY** **SPEED** **EFFICIENCY**

# OUR HYGIENE PROMISE

Crossway Scaffolding Group, Hygienic division, ensure all materials and operatives meet accreditation standard when working within any food hygiene environment.

-  **Our materials are pressure washed, cleaned and hygienically wiped prior to use**
-  **Plastic boards are used throughout along with clean Van Thiel components with no rusty fitting threads**
-  **All Crossway engineers use clean Personal Protective Equipment & White Coats/ Overalls where required**

# ARLA - LEEDS DAIRY

## HYGIENIC SCAFFOLD PLATFORMS

Hygienic scaffold platforms with plastic boards and flame retardant sheeting to capture debris from drilling through upper floor for services. Working around and over multi million pound machinery being installed at the same time.

# ARLA - LEEDS DAIRY

## 10 TON LOADING PLATFORM

10 ton loading platform with temporary staircase to facilitate loading of heavy vessels and machinery into the new plant

# ARLA - LEEDS DAIRY

## INTERNAL SCREENING

Internal screening to isolate work areas from main production area

# NESTLE - CARLISLE

## SPECIALIST PROTECTION SCREENS

whilst work is being undertaken in sensitive areas for example food factories, shopping centres or highly sensitive production facilities, where dust control may become a problem.
