F.T.A.O Mr. Steve Fearnough

RE: Crossway Scaffolding Ltd

Dear Steve

Following the successful practical completion of Central Square we would like to thank Crossway for your continuous support in what has been a challenging and extremely high risk construction project requiring complex scaffolding solutions.

Crossway's have performed extremely well throughout the project and have met the high demands of our lift engineers, curtain walling, cladding & brick work contractors.

Your site supervisor Scott Grant has been a pleasure to work with over the last 18 months and he has led by example promoting the safety standards and can do attitude we require on site to operate efficiently and drive the construction programme.

Scott and his team have repeatedly worked out of hours including weekends and early starts to minimise risks to other trades and coordinate deliveries so that the project has run as smoothly as possible. His knowledge and expertise have also been invaluable in ensuring the more complex design scaffolds have been fit for purpose by liaising with both our temporary work engineers and Crossway's scaffold designers.

I hope to work with Crossway again in the future.

Kind Regards

Damien Brown | Project Manager | Wates Construction
